

Cold Fusion Rides Again Science magazine publishes more evidence of tabletop nuclear reactions

Monday, March 25, 2002

[Hal Plotkin, Special to SF Gate](#)

Science magazine dropped a bombshell earlier this month: The prestigious journal published a paper by a team of researchers at Tennessee's Oak Ridge National Laboratory who say they have discovered evidence of what looks like nuclear fusion taking place in a relatively inexpensive tabletop device.

The findings bear striking similarities to the controversial cold-fusion claims made by chemists Stanley Pons and Martin Fleischmann in 1989, although the particular experiment is different.
